II. Read the text below and find ONE suitable word to fill in gap: (2.0 points)

TAKING IT EASY

Society has changed in many ways since the introduction of computers, and people's lives at home and at the office have been affected. Most people are working for fewer hours per week than they (1)_____ to, and manufacturers and advertising agencies are becoming much (2)_____ interested in how people spend this extra leisure time. One recent report stated that, while the number of hobbies had not increased, each hobby (3)_____ become much more specialized.

A second finding is that nowadays, many managers would (4)_____ spend time with their families than stay late in the office every day. Home life is seen to be just as important (5)_____ working. Some companies now (6)_____ managers take their annual holidays even if they don't want to, because this leads to (7)_____ an improvement in their performance if they have some rest.

In (8)_____ of these changes, some people are working harder than ever before. The standard of exams is getting higher, and increased competition is (9)_____ it harder to get into university than it was 20 years (10)_____. School children and students are now having to work so hard that in many cases they work longer hours than their parents.

III. Read the following passage and circle the letter next to the best answer for each question below it. (2.0 pts)

Although they are an inexpensive supplier of vitamins, minerals, and high-quality protein, eggs also contain a high level of blood cholesterol, one of the major causes of heart diseases. One egg yolk, in fact, contains a little more than two-thirds of the suggested daily cholesterol limit. This knowledge has caused egg sales to plummet in recent years, which in turn has brought about the development of several alternatives to eating regular eggs. One alternative is to eat substitute eggs. These egg substitutes are not really eggs, but they look *somewhat* like eggs when they are cooked. They have the advantage of having low cholesterol rates, and they can be scrambled or used in baking. One disadvantage, however, is that they are not good for frying, poaching, or boiling. A second alternative to regular eggs is a new type of egg, sometimes called 'designer' eggs. These eggs are produced by hens that are fed low-fat diets consisting of ingredients such as canola oil, flax, and rice bran. In spite of their diets, however, these hens produce eggs that contain the same amount of cholesterol as regular eggs. Yet, the producers of these eggs claim that eating their eggs will not raise the blood cholesterol in humans.

Egg producers claim that their product has been *portrayed* unfairly. They cite scientific studies to *back up* their claim. And, in fact, studies on the relationship between eggs and human cholesterol levels have brought *mixed results*. It may be that it is not the type of egg that is the main determinant of cholesterol but the person who is eating the eggs. Some people may be more sensitive to cholesterol derived from food than other people. In fact, there is evidence that certain dietary fats stimulate the body's production of blood cholesterol. Consequently, while it still makes sense to limit one's intake of eggs, even designer eggs, it seems that doing this without regulating dietary fat will probably not help reduce the blood cholesterol level.

1. What is the main purpose of the passage?
 - A. To inform people about the relationship between eggs and cholesterol.
 - B. To convince people to eat 'designer' eggs and egg substitutes.
 - C. To persuade people that eggs are unhealthy and should not be eaten.
 - D. To introduce the idea that dietary fat increases the blood cholesterol level.
2. According to the passage, which of the following is a cause of heart diseases?
 - A. minerals
 - B. cholesterol
 - C. vitamins
 - D. canola oil
3. Which of the following could best replace the word '*somewhat*' in the passage?
 - A. indefinitely
 - B. in fact
 - C. a little
 - D. a lot
4. According to the passage, what has been the cause for changes in the sale of eggs?
 - A. dietary changes in hens
 - B. decreased production
 - C. increasing price
 - D. concerns about cholesterol.
5. According to the passage, one yolk contains approximately what fraction of the suggested daily limit for human consumption of cholesterol?
 - A. 1/3
 - B. 1/2
 - C. 2/3
 - D. 3/4
6. The word '*portrayed*' in the passage could best be replaced by which of the following?
 - A. described
 - B. studied
 - C. destroyed
 - D. tested
7. What is the meaning of the phrase '*back up*' in the passage?
 - A. reverse
 - B. advance
 - C. support
 - D. block
8. What is meant by the phrase '*mixed results*' in the passage?
 - A. The results are blended.
 - B. The results are inconclusive.
 - C. The results are a composite of things.
 - D. The results are mingled together.
9. According to the passage, egg substitutes cannot be used to make any of following types of eggs except _____?
 - A. scrambled
 - B. fried
 - C. poached
 - D. boiled

10. According to the author, which of the following may reduce blood cholesterol?
- | | |
|--|--|
| A. Reducing egg intake but not fat intake. | B. Increasing egg intake and fat intake. |
| C. Increasing egg intake but not fat intake. | D. Decreasing egg intake and fat intake. |

PART IV. WRITING (5.0 points)

I. Use the words in brackets to write a second sentence as similar as possible in meaning to the first one. DO NOT CHANGE THE WORD in brackets. You must use between TWO and FIVE words, including the word given. (1.4 pts)

- It isn't necessary for anyone to work late tonight. (**has**)
→ Tonight _____ work late.
